PERSONAL PROFILE:

A highly creative and motivated video editor/graphics designer and experienced computer engineer with adept knowledge of all video editing/designing tools and all that computer as a whole encompasses and also knowledge and good skills of relating and communicating with customers.

When I dropped out of school due to financial reasons in 2017, I felt that was the end for me but due to passion for editing and creating graphical designs, I never relented. I pursued my passion and gained a certificate of proficiency from Adobe verifying me as an expert in editing and creating Graphics designs in 2019.

I am currently an intern as a video editor at AMX AFRICA. Where I have gained so much knowledge about my field of work and also gained skills as a videographer and a colorist.

Seeking an entry level position where I can effectively utilize and use my editing, videography, color grading, and computer knowledge skills and thinking abilities to the growth of the company.

I want to utilize my skills and knowledge together with my communication skills in a team-oriented environment in order to make notable contributions.

WORK EXPERIENCE:

➤ GRAPHICS DESIGNER AND COMPUTER ENGINEER AT KAYTECH COMPUTER COMPUTER VILLAGE, IKEJA,(2017-2018)

I had to drop out from school due financial issues then but that did not stop me from achieving and gaining the skills I really loved. After leaving school, I worked and learnt how to professionally use a computer system, graphics designing and also learnt computer engineering to gain the skill of trouble-shooting at kaytech computer. I worked as an engineer and a Graphics Designer for kaytech computer.

Responsibilities& Skills acquired:

- Trouble-shooting and repairs of systems.
- Creating graphical designs for clients
- Selling of systems of various types to customers
- Making sure the customer is always satisfied with my designs
- Representing Kaytech computer inside and outside of the business
- Enticing and sweet talking customers to buy a particular product when they have a double-mind about the product
- Solving and fixing a system problem before the appointed time.
- Multi tasking

➤ VIDEO EDITOR ASSISTANT/ GRAPHICS DESIGNER IKEJA, LAGOS (2018-2020)

After leaving KAYTECH, I attended Adobe Masterclass Nigeria programme to further advance my Graphics designing skills and where I learned how to edit and also gained a certificate as a proficient editor and Designer. Then I Worked as an assistant to a music video producer and director. **XZEEMIKE**. Founder of Glitch booth. All skill I gained as a video editor, engineer and graphics designer came into play. Trouble shooting, multi-tasking, solving problems fast, creating graphics all at the same time.

Responsibilities:

- Making sure all cameras are on set and ready to shoot.
- **Creating graphical designs for clients**
- coordinating shooting areas
- Working hand-in-hand with makeup artist making sure the singer is orderly dressed.
- Assisting the director when editing
- Communicating with singer and making sure all needs are taken care of.
- Making sure everyone is well organized in location area.

➤ **VIDEO EDITOR/VIDEOGRAPHER INTERN AT AMX AFRICA
OGBA, LAGOS (2020 - PRESENT DATE)**

I am currently an intern as a video editor at AMX AFRICA. Where I have gained so much knowledge and experience about my field of work and also gained skills as a videographer and a colorist. Working with different directors, going for shoots, editing the footage and color grading them has been a wonderful experience so far and as added to my knowledge. I have learnt so much about post production.

Responsibilities:

- Handling cameras most of the time during shoot.
- Setting up cameras for shoot
- Editing premiere and other work related videos
- Making sure the cameras are working perfectly during an shoot
- Technically operating the cameras if any problem arises
- Handling and setting of cameras on gimbals
- Learning more everyday about videography
